IMPORTANT NOTICE TO AVOID ANY FUTURE CONFUSION 09.05.10

Having checked with last years Captain and some of the committee the following still applies for men playing in their normal Saturday competitions.

If you are starting your first 9 and people are coming up the 9th and you have not time to tee off and get started and well down the first fairway you must allow them to play through and then you can filter in regardless of where the next group are on the 9th. If there are more waiting to play their first 9 and more people coming up the 9th you do the same as above by letting the people on the 9th play through and then the people waiting to play their first 9 filter in again and so on. It is a filter system; otherwise players could be waiting indefinitely to play their game.

It would also be helpful if people playing in the competition put their names up on the sheet provided.

Signed Captain

James Gordon
